

Angelic Reiki Healing Fact Sheet

"After months of feeling weakness, pain throughout my body, memory loss and a shadow entering my mind, I came to the conclusion that something outside of myself was draining my energy. I literally felt like I was dying. I took contact with Charlie, who did her magic, found the cause and removed it and in two days I was back to my normal self. Lots of energy, no pain, mentally joyous and grateful and content again. Thank you Charlie for Saving my life." Derry Neilsen, Sweden

What is Angelic Reiki Healing?

Angelic Reiki Healing is a gentle, yet powerful healing modality working with the angelic frequencies to support the physical, mental, emotional and spiritual bodies. It is a hands-on therapy with a delicate connection that brings forth the light to support your needs, often enabling clarity as to the root cause of a condition. Angelic Reiki Healing is a form of energy healing which is non evasive, soothing and peaceful, seeking to reconnect the individual with the Divine.

What is the process?

Angelic Reiki Healing is face to face lasting up to 90 minutes each session. The session begins with a cuppa and a chat – this is an opportunity for you to share any concerns you may have about your wellbeing. The healing then takes place lying down on a couch (or in an upright chair if more comfortable). At the end of the session, Charlie will share any relevant insight to support your wellness. Healing can take a number of days to integrate and it's important to stay well hydrated.

Charlie also works with crystals to support the healing and may suggest crystals to enhance your wellbeing.

Why Charlie?

Angelic Reiki Healing is offered by Charlotte Coltman (Charlie). Her services are differentiated insofar she encourages conscious awareness rather than being a passive receiver. In addition, she can visualise DNA, undertake DNA healing, support clients to the higher (galactic) dimensions and facilitate inner child, ancestral and past-life (multidimensional) healing.

Charlie's healing includes standard practices such as full grounding, chakra alignment and a full clearing of the energetic bodies. She is also a medium and can read the Akashic Records (etheric library of earth).
